

# HemoCue® Glucose 201 DM RT System

# Efficient and secure workflow with data management and connectivity

Glucose 201 DM RT

With its unique cuvette technology, the HemoCue® Glucose 201 DM RT System gives you accuracy at the point of care while minimizing the risk of spreading infection. Plus, you have the added controls and productivity means made possible with advanced data management. With instant data connection, customizable prompts and more, you gain tighter control of authorized use and higher efficiency in everything from patient management to billing.

# Enables the highest accuracywith the lowest risk

- For screening, monitoring and aid in diagnosis of diabetes mellitus
- Microcuvette technology means no need to bring analyzer near patients, minimizing the risk of spreading infection
- Individually wrapped microcuvettes to avoid contamination and maximize shelf-life

# Safeguards patient testing and data

- Customizable automatic prompts for patient ID, operator ID, lot numbers etc.
- · User login and lockout functions
- Quality control tests, including QC lockout, linearity and proficiency testing

# Offers convenience and efficiency

- Portable and battery-operated system with room temperature microcuvette storage, ideal for mobile settings
- Automatic transfer of results
- · Reduced manual entry errors

# HemoCue® Glucose 201 DM RT System

Specifications

#### Principle

Modified glucose dehydrogenase in which the total amount of glucose is measured at the end point photometrically

#### Calibration

Factory calibrated and traceable to the ID GC-MS method; needs no further calibration and no coding

#### Sample material

Capillary, venous or arterial whole blood

### Measurement range

Plasma equivalent values: 0.61-30.8 mmol/L (11-555 mg/dL) Whole blood values: 0.55-27.8 mmol/L (10-500 mg/dL)

#### Results

Including data entry, within one minute for normal glucose levels

### Sample volume

<4 μL

#### **Dimensions**

Analyzer:  $170 \times 93 \times 50$  mm (6.70  $\times$  3.66  $\times$  1.97 inches) Docking Station:  $206 \times 135 \times 61$  mm (8.10  $\times$  5.30  $\times$  2.40 inches)

# Weight

Analyzer: 350 g (0.77 pounds) with batteries

installed

Docking Station: 566 g (1.24 pounds)

## Storage temperature

Analyzer: 0-50 °C (32-122 °F) Microcuvettes: 0-30 °C (32-86 °F)

# Operating temperature

15-27 °C (59-80 °F)

#### Power option

Internal rechargeable Li-ion batteries or docking station with AC adapter

#### Interface

USB/LAN POCT1-A

### Quality control

Built-in self-test; system can be verified using liquid controls

HemoCue Glucose 201 DM RT vs Dimension Vista, individual replicates. No of replicates=80. Origin from ref Kos et al, Clin Chem Lab Med 2012;50(9):1573-1580

# A few simple steps

Fill microcuvette.

2 Place microcuvette into analyzer.

3 View results (either in mmol/L or mg/dL).

4 Seamlessly interface with your network.
